## Profile

I am a dedicated IT Engineer with a strong determination. My goal is to excel in a dynamic organization, leveraging my skills and expertise to achieve excellence in the field of Information Technology.

## Technical Skills

- Programming Languages: C/C++, Python
- Web Development: HTML, CSS, JavaScript (including React JS)
- Database Management: SQL
- MERN

## Academic Main Project

### CHATBOT

This project aims to revolutionize the user experience and support system at the University College of Engineering Karyavattom (UCEK) by developing a sophisticated multilingual chatbot. Leveraging machine learning techniques, the chatbot is designed to effectively communicate in both English and Malayalam languages, catering to a diverse user base comprising students and parents. The chatbot provides a user-friendly interface with voice typing capabilities, ensuring seamless interactions and accessibility for all users.

### Technologies Used:

- Front-end: React JS
- Backend: Node JS
- AI Framework: Rasa

## Academic Mini Project

### ONLINE JOB PORTAL

The objective of the software is to provide flexibility to job seekers by providing the functionalities of both job search and job application. In addition, it also provides an effective means for employers to post job vacancies and view job applications by interested applicants.

### Technologies Used:

- Front-end: HTML, CSS
- Backend: MySQL Database
- Application Server: Apache Tomcat
